

College of Engineering Chengannur

Dept. of Computer Engineering

CSD415 Project Phase 1

Schedule 2025-2026 (Odd Sem.)

Phase	Period	Last date	Activity
1	01 th July – 08 rd July	08 th July	1. Form the group with maximum of 4 members and select a team leader
2	08 th July – 10 th July	10 th July	1. Identify 3 Project topics (Problem statements) 2. Submit abstract (Title of Problem, Description of the problem, Identify Users/Stakeholders, Why is it important to solve this problem, Proposed technological solution, Expected benefits and impact)
3	10 th July- 17 th July	17 th July	1. Abstract Presentation 2. Project selection/Acceptance 3. Selection of project guide
3	17 th July – 24 th July	24 th July	1. Feasibility Study – report to guide 2. Zeroth review presentation by the team 3. Project Finalization
4	24 th July – 31 st July	31 st July	1. Literature survey (Minimum 12 research papers) 2. Literature survey presentation
4	31 st July - 14 th August	14 th August	1. Project Analysis 2. Decompose the Project into Functional requirements. 3. Submit SRS report
5	14 th August - 11 th Sept	11 th Sept	1. Design the Project. 2. Submit the Project design Report. 3. Implementation of the Project Base Paper (Implement front end and backend using full stack development tools)
6	11 th Sept - 18 th Sept	18 th Sept	1. Implementation of the Project (Implementation of product features with user friendly interface that meets security and scalability criteria. Use version control tools like git) 2. First interim evaluation
7	18 th Sept to 16 th Oct	16 th Oct	1. Paper writing and Publication report (using Latex) 2. Report Submission (using Latex) 3. Funding proposal submission 4. Final presentation of base paper implementation

			(Duration for entire team not exceeding 30 Minutes)
--	--	--	---

Prof. Muhammed Ilyas H, Dr. Geetha S., Dr. Sabeena K.
(Project Coordinators)

Abstracts should contain

1. Title of Problem statement
2. Description of the problem
3. Identify Users/Stakeholders
4. Why is it important to solve this problem
5. Proposed technological solution
6. Tools Used (Platform, Language, other software etc..)
7. Expected benefits and impact
8. References
